

**G**LOBAL WARMING or climate change is really happening, is really serious, and we can still really do something about it!

### **Carbon Fee and Dividend is...**

A climate solution that's simple, fair, and market-friendly

- ◆ Place a fee on fossil fuels at the source (mine, well or port)
- ◆ Return 100% of the fee as a dividend to U.S. households

### **It stabilizes the Climate and Boosts the Economy**

- ◆ Cuts greenhouse gas emissions by 50% in 20 years
- ◆ Creates 2.8 million jobs, boosts our GDP and saves 200,000 lives
